Field Crop Research 39 (1994) 181–182

Field Crops Research

Contents of *Field Crops Research,* Volume 39

Vol. 39 No. 1 — October 1994

Improvement for tolerance to low soil nitrogen in tropical maize I. Selection criteria
H.R. Lafitte and G.O. Edmeades (México, D.F., Mexico) 1
Improvement for tolerance to low soil nitrogen in tropical maize II. Grain yield, biomass production, and N accumulation
H.R. Lafitte and G.O. Edmeades (México, D.F., Mexico) 15
Improvement for tolerance to low soil nitrogen in tropical maize III. Variation in yield across environments
H.R. Lafitte and G.O. Edmeades (México, D.F., Mexico) 27
The interaction of cowpea maturity with degree of waterlogging in the post-rice environment
J. Timsina, D.P. Garrity and R.K. Pandey (Manila, Philippines) 39
Plant water relations and growth of cowpea cultivars subjected to varying degrees of waterlogging
J. Timsina, D.P. Garrity and R.K. Pandey (Manila, Philippines) 49

Book Reviews 59

Vol. 39 Nos. 2, 3 — December 1994

Effects of intercropping and fertilizer application on weed control and performance of cassava and maize
F.O. Olasantan, E.O. Lucas and H.C. Ezumah (Ibadan, Nigeria) 63
Comparative behavior of three wheat cultivars and their mixture in India, Nepal and Pakistan
H.J. Dubin (Col. Juarez, Mexico) and M.S. Wolfe (Zürich, Switzerland) 71
Variation in temperate cereals in rainfed environments III. Water use and water-use efficiency
C. López-Castañeda and R.A. Richards (Canberra, ACT, Australia) 85
Screening rice for drought resistance at the reproductive phase
D.P. Garrity (Bogor, Indonesia) and J.C. O'Toole (Bangkok, Thailand) 99
Does temperature affect final numbers of primordia in wheat?
G.A. Slafer (Parkville, Vict., Australia) and H.M. Rawson (Canberra, A.C.T., Australia) 111
The soil fertility effects of leguminous ley pastures in north-east Thailand I. Effects on the growth of roselle (*Hibiscus sabdarrifa* cv. Altissima) and cassava (*Manihot esculenta*)
T.A. Gibson and S.A. Waring (St Lucia, Australia) 119
The soil fertility effects of leguminous ley pastures in north-east Thailand II. Effects on soil physical and chemical parameters
S.A. Waring and T.A. Gibson (St Lucia, Australia) 129
The soil fertility effects of leguminous ley pastures in north-east Thailand III. Estimates of soil nitrogen availability
S.A. Waring, T.A. Gibson and V.P. Ila'Ava (St Lucia, Australia) 139
Evaluation of the groundnut model PNUTGRO for crop response to water availability, sowing dates, and seasons
P. Singh (Patancheru, Andhra Pradesh, India), K.J. Boote (Gainesville, FL, USA), A. Yogeswara Rao (Andhra Pradesh, India), M.R. Iruthayaraj (Coimbatore, Tamil Nadu, India), A.M. Sheikh (Anand, Gujarat, India), S.S. Hundal, R.S. Narang (Ludhiana, Punjab, India) and P. Singh (Hisar, Haryana, India) 147
Evaluation of the groundnut model PNUTGRO for crop response to plant population and row spacing
P. Singh (Patancheru, Andhra Pradesh, India), K.J. Boote (Gainesville, FL, USA) and S.M. Virmani (Patancheru, Andhra Pradesh, India) 163
